Split-level interior spaces and high ceilings interlock the hillside's edge with the structure, bringing the landscape inside the home. A neutral color palette and exposed raw materials draw one's focus to views of the valley below.

Project / Single Family Residential
Location / Los Gatos, California
Company / Mark Horton | Architecture
Completed / August, 2020

The common interior areas of this 6 story, 150,000 sf building was remodeled as a way to attract a new tenant into the space. The custom designed areas included a new break room with built-in bench seating, restrooms, conference spaces, and the reception. The design concept was to bring in natural elements to make a cozy, relaxing space.

Project / Interior Market Ready
Location / Santa Clara, California
Company / Studio G Architects, Inc.
Completed / Under Construction

What was once a chocolate factory, is now a modern, energizing cycling gym. The added clean visual lines complement the original industrial facade, preserving the sense of movement fitting to an industrial building turned fitness center.

Project / Cycling Fitness Center
Location / San Francisco, California
Company / Mark Horton | Architecture
Completed / August, 2020
